Manufacturing Manager

Peak Pipe Systems Ltd – Senior Management Team

Responsible to: General Manager

Hours: Mon – Fri, 08:30 - 17:00 (37.5 hours p/week)

Location: Chesterfield, Derbyshire, S41 9PZ

The Company:

Peak Pipe Systems are a market leader in the manufacture and supply of polyethylene pipeline solutions into the UK utilities, aquaculture and renewables market sectors. With over 40 years of industry experience Peak has become synonymous with high-quality products, strong technical know-how all delivered with friendly and efficient customer service levels. Peak has a unique market position with an optimistic growth strategy in key market areas over the next 5 years and is looking for the right candidate to join the dynamic senior management team on this exciting journey. With considerable growth since 2013, the business has truly established its market position and is now one of the key pipe manufacturers in the UK.

Our business activity is carried out across the following principal sectors:

Water: Pipelines & fittings, utilities, wastewater, pumping, sewerage treatment, rising mains

Gas: low/medium pressure gas networks (pipe & fittings), service connections

Energy: cable ducting, windfarm electric generation, hydro-electric

Aquaculture: marine harvesting, feedstock systems, muscle float systems

Environmental: landfill methane gas extraction, anaerobic digestion and irrigation systems

Drainage: Siphonic drainage, gravity-fed sewers, rainwater harvesting

Transport: Rail, Waterways, Highways, Telecoms

The Role:

The successful candidate will lead the manufacturing function on output targets and within budget to meet customer requirements and standards. Full accountable for ensuring safety, customer quality, cost and delivery requirements are met. Responsible for developing an enthusiastic, motivated and flexible team by building working relationships ensuring that Health, Safety and Environmental requirements are adhered to. Manage the team on best practice and establish standard policies and procedures whilst also mentoring and leading teams. To implement and manage modern manufacturing principals by highlighting deficiencies and recommending changes in training, working practices and processes.

Reporting to the General Manager, the successful candidate will champion the below key responsibilities:

- Contribute to the creation and implementation of best practice manufacturing vision, strategy, policies, processes and procedures to aid and improve operational performance.
- Identify business improvement opportunities within the organisation
- Effectively and efficiently manage the production of the required daily/weekly/monthly targets in line with customer specifications, meeting quality and delivery expectations, minimising costs where possible and ensure the required best working practices are maintained at all times
- Responsible for plant production, financial performance, meeting customer requirements and maintaining the orderly and productive operation of planned activities
- Ensure the target productivity level is achieved on a daily basis
- Communicate and liaise with other departmental managers regarding throughput of stock to ensure production targets are met
- Drive process improvements on Overall Equipment Effectiveness (OEE) by appropriate data analysis
- Attend various meetings and action/communicate instructions
- Produce written reports and make presentations
- Identify and deploy technical skill sets, resource levels and systems to deliver projects, including the engagement of external customers as required
- Manage, coach and develop a high performing manufacturing team that meets agreed objectives, and which delivers best practice results, added value and continuous improvements

Experience & Skills – the Person:

- Product Management and development
- Analysis of pricing, planning, competition
- Inventory Control
- Strategical planning to include financial and sales
- Previous management experience of staff
- Effective and calm under pressure, experienced working within a high paced environment
- A tenacity to succeed and a can-do, solutions-driven attitude

The Benefits:

- Pension plan with generous company contribution
- Targeted senior management bonus structure
- Company health & wellbeing scheme
- Staff discounts
- Team building programme

- Company suggestion incentive scheme
- Annual senior management collaborative review
