Product & Systems Manager

Peak Pipe Systems Ltd – Senior Management Team

Responsible to: Operations Director

Hours: Mon – Fri, 08:30 - 17:00 (37.5 hours p/week)

Location: Chesterfield, Derbyshire, S41 9PZ

The Company:

Peak Pipe Systems are a market leader in the manufacture and supply of polyethylene pipeline solutions into the UK utilities, aquaculture and renewables market sectors. With over 40 years of industry experience Peak has become synonymous with high-quality products, strong technical know-how all delivered with friendly and efficient customer service levels. Peak has a unique market position with an optimistic growth strategy in key market areas over the next 5 years and is looking for the right candidate to join the dynamic senior management team on this exciting journey. With considerable growth since 2013, the business has truly established its market position and is now one of the key pipe manufacturers in the UK.

Our business activity is carried out across the following principal sectors:

Water: Pipelines & fittings, utilities, wastewater, pumping, sewerage treatment, rising mains

Gas: low/medium pressure gas networks (pipe & fittings), service connections

Energy: cable ducting, windfarm electric generation, hydro-electric

Aquaculture: marine harvesting, feedstock systems, muscle float systems

Environmental: landfill methane gas extraction, anaerobic digestion and irrigation systems

Drainage: Siphonic drainage, gravity-fed sewers, rainwater harvesting

Transport: Rail, Waterways, Highways, Telecoms

The Role:

The successful candidate will move into a new role identified in the senior management team to provide a vitally required focus on Products, including approvals, standards compliance and technical support and Systems, ranging from our established ISO9001 QMS through to our IT business system. Factor in the need for an ability to manage pan-business projects with both internal and external interfaces with being a key member of the senior management team managing the business on both a day-to-day tactical level as well as a strategic long term focus – the role is not for the feint hearted.

Reporting to the Operations Director, the successful candidate will champion the below key responsibilities:

- To manage the product portfolio, including all data types (BOMs, production documents, relevant KPIs, certificates of conformity, technical literature, etc.). To ensure at all times the data is accurate and supports the operational and improvement initiatives in the business
- To maintain a strong technical know-how and understanding of the business's product range and associated applications, including national and international standards. To support both the Operations and Commercial teams on all technical issues
- To work with the Business Development Manager and Commercial Manager to identify new product / market opportunities and convert into sales growth
- To work collaboratively with the wider Peak Pipe Systems business (Ops, Planning/Procurement, Finance, Technical, etc.) to optimise customer experience (Cost, Service, Quality) and support business activities
- To manage and maintain all aspects of the business's Quality Management System (QMS). Including the direct relationship with accreditation bodies and testing houses. Ensure at all times the business is compliant in all aspects of the operation of the business with regard to the QMS
- To effectively manage key projects (product, systems, commercial, development, etc.) – internal and external facing
- To develop the Information Technology (IT) strategy and implement. To manage the day to day performance of all IT systems & infrastructure with internal and external resources

Qualifications & Skills – the Person:

- Degree/HND or similar management qualification
- Previous management experience of staff
- Strong IT skills, including business systems and advanced use of Excel
- Proven track record of major project management
- Structured, organised and familiar with ISO9001 QMS requirements
- Strong communication and presentation skills, able to operate at Board level
- Effective and calm under pressure, experienced working within a high paced office environment
- A tenacity to succeed and a can-do, solutions-driven attitude

The Benefits:

- Pension plan with generous company contribution
- Targeted senior management bonus structure
- Company health & wellbeing scheme
- Staff discounts
- Team building programme

- Company suggestion incentive scheme
- Annual senior management collaborative review
